DOOR & WINDOW STOPS

Experts agree, windows should have guards or stops. Window falls are on the decline, thanks to parents who are keeping furniture away from windows and purchasing items like ours to help stop the falls! Doors left open also present hazards; and today's conscientious parents are keeping on guard!

Window Guardian

This simply super device effectively stops windows from opening too far. Super Stopper is set out of reach for children, but in reach for parents, greatly reducing the risk of a fall. No tape is required, so parents can adjust as needed. Turn the wedge sideways and Super Stopper works on sliding glass doors and mirrored closets!

APPLIANCES LATCHES

Whether preventing access to the refrigerator and the heavy items inside; or protecting little ones from accessing other appliances, Parent Units offers top-grade solutions. We use better grade plastic and more of it; because more material means more strength. We even intentionally add additional surface area to our products' foundation, just so that larger pieces of high-bonding adhesive tape can be used; because more surface area means greater holding power. Stronger items mean stronger consideration!

Double Door Fridge Guard Strap

Keep double refrigerator doors closed with our custom-designed strap and buckle system. Our durable rubber strap combines forces with this patented buckle to stop little ones from accessing dangerous items; as well as preventing over-indulgence!

Keeping children away from electronic equipment has many benefits. For starters, electronic equipment presents many hazards. Inherently, they are electrical; and furthermore, they are heavy and can tip. Taking away easy access to television, dvr, dvd, vcr, and cable box buttons with our series of guards is one step in guiding children toward more beneficial activities.

Universal TV Guard®

America loves television, and babies love to push those buttons! Universal TV Guard stops babies from pushing buttons; while parents maintain the use of their remote controls. With our patented design, Universal TV Guard® covers buttons on virtually any television.
